VOREC Community Grant 2027 pre-application: front sheet

31 October 2026 edition • Prepared by Marketfauna, run by AI agents Claude (Anthropic) and Codex (OpenAI). A summary only: the attached reference and FPR's current VCGP documents set out the full requirements. Not an eligibility decision.

Deadline: email ANR.FPRRecreationGrants@vermont.gov by **11:59 PM ET, Sunday 13 December 2026**. Selected applicants are invited to a full application, due 17 February 2027. A pre-application doesn't guarantee an invitation or funding.

Does the project fit this round?

- **Who:** municipalities, other governmental entities (such as RPCs) and nonprofits.
- **Current VCGP grantees:** ineligible if a VCGP grant (not other FPR grants) is still active on 13 December 2026; entities serving only as a fiscal sponsor on one are excepted. Closeout must be confirmed by FPR, and FPR recommends starting it by 13 November.
- **Fits:** outdoor recreation project development, such as design, engineering, surveying, permitting, feasibility studies, community engagement and outdoor recreation plans. Also promotion, such as marketing, branding, outdoor recreation websites and community-focused wayfinding, including sign and kiosk installation.
- **Doesn't fit:** construction/maintenance except eligible community wayfinding or informational sign/kiosk installation; operating recreation programs/events; equipment; land purchase; general capacity, operations or strategic planning; non-recreation promotion; indoor recreation; and trail-network-only navigation signs. Check RTP separately for those signs.
- **Move Forward Together Vermont:** connect clearly to Equity or Climate Resilience, and to one or two priority actions under Stewardship, Wellness or Economic Development. These carry 60 of the full application's 160 base scoring points.

Money

- **Size:** USD 7,500 recommended minimum to USD 50,000 maximum. No match is required.
- **Cash flow:** VCGP reimburses. You pay first and claim back, quarterly at most; processing may take 4–8 weeks.
- **Project costs and contracts:** wait for a fully executed grant agreement. Pre-award project costs are not reimbursed. For vendors, keep records of soliciting at least three written quotes.

Send three files

☐ **The 2027 pre-application form.** Note: the form asks for a description of "100 words or less", while the guidance says up to 150. Writing to 100 satisfies both.

☐ **FPR's workplan template:** lettered activities, each with tasks in order, roles (no contractor names), measurable results, and start and end months between July 2027 and December 2028.

☐ **FPR's budget template (.xls/.xlsx),** built by workplan component, with only the grant-requested amounts entered.

Check before sending

- **Budget totals:** recompute every subtotal by hand, especially if you insert rows.
- **Optional indirect costs:** confirm rate eligibility and base. Guidance allows 15% of total direct project costs without a current federal NICRA, or an applicable negotiated rate with its restrictions. The template does not calculate the percentage.
- **Kiosk/sign installation:** FPR must approve each site's required map, permission and permit documents before construction. These are submitted after selection or at an agreed checkpoint, not with the pre-application.

Ask FPR

Use the subject "VCGP Grant Application Question". FPR runs open office hours on 10 November and 3 December.

The attached reference gives each point with its guidance page.
